Vijay Ramesh Kumar

vjyramesh@gmail.com · Bangalore, Karnataka · +91 7676654650

Objectives

I am a seasoned front-end designer and web developer with a strong background and interest in design and development technologies.

My primary academic and professional focus is centered around architecting high-performance, scalable, data-driven web applications using proven data structures, algorithms, and design patterns and the occasional modern web framework.

Education

BE(Computer Science & Engineering) - Park college of engineering and technology, Coimbatore

Experience

Company: Pro Unlimited
Role: Front End Developer (August 2018 - Present)

- Program, test and debug all web applications.
- Design, develop, test and deploy web applications.
- Code pages, files, test, debug and deploy.
- Develop appropriate code structures to solve specific tasks.
- Coordinate with other designers and programmers to develop web projects.
- Collaborate with staff and teams to develop, format and deploy content.
- Assist and support in the upkeep and maintenance of web sites.
- Research and propose software programs that are compatible with the future technologies.
- Initiate periodic testing and implement contingency plans in case of systems failure.
- Fix bugs, troubleshoot and resolve problems.

Company: Axisrooms Travel & Distribution Private Limited
Role: Front End Developer (April 2018 - August 2018)

- Program, test and debug all web applications.
- Design, develop, test and deploy web applications.
- Code pages, files, test, debug and deploy.
- Develop appropriate code structures to solve specific tasks.
- Coordinate with other designers and programmers to develop web projects.
- Collaborate with staff and teams to develop, format and deploy content.

- Assist and support in the upkeep and maintenance of web sites.
- Research and propose software programs that are compatible with the future technologies.
- Initiate periodic testing and implement contingency plans in case of systems failure.
- Fix bugs, troubleshoot and resolve problems.
- Assume ownership of code throughout development, staging, testing and production.

Company: Adobe India Private Limited
Role: UI Consultant(Jul 2017 - Mar 2018)(On Payroll)

- Program, test and debug all web applications.
- Design Integration with the AEM
- Fix bugs, troubleshoot and resolve problems.
- Coordinate with other designers and programmers to develop web projects.
- Collaborate with staff and teams to develop, format and deploy content.

Company: WIZROOTS Technologies
Role: Web Developer (Jul 2015 -July 2017)
Senior Software Engineer (Jul 2017 - Mar 2018)

- Program, test and debug all web applications.
- Design, develop, test and deploy web applications.
- Code pages, files, test, debug and deploy.
- Develop appropriate code structures to solve specific tasks.
- Coordinate with other designers and programmers to develop web projects.
- Collaborate with staff and teams to develop, format and deploy content.
- Assist and support in the upkeep and maintenance of web sites.
- Research and propose software programs that are compatible with the future technologies.
- Initiate periodic testing and implement contingency plans in case of systems failure.
- Fix bugs, troubleshoot and resolve problems.
- Assume ownership of code throughout development, staging, testing and production.

Technologies
HTML 4/5, CSS, JavaScript, Typescript, Angular 4 / 5, NodeJs, Sass, Less, Handlebars.
Basic Knowledge in Ionic 3, VueJS, XD.

Libraries & Framework
jQuery, SCSS, LESS, Twitter Bootstrap 3 & 4, Gulp.

Projects Worked :

Adobe Digital Learning Solution(ADLS):   url: https://learning.adobe.com

Adobe Digital Learning Solution(ADLS) is an e-learning platform where users can go and register for the courses. This site will have the functionalities like Learning Path, Skill Assessment etc... For this project, we have used AJAX, JQuery, Handlebars, HTML5, JS & LESS. Backend Development was done using AEM(Content Management System based on JAVA). UX Designer provided the site design and flow using XD application and we developed accordingly. I have also owned the bug fixing of this project as well.

Anime: url: https://www.bandainamco.site

Anime (GUNDAM) is a gaming company in japan. In this project my role is to own UI integrations with all backend development. These tasks include designing the user flow from UI side and implementing it. For this, we have used AJAX, JQuery, Handlebars, HTML5, JS & CSS3. Backend development was done using AEM (Content management system based on JAVA). HTMLs were developed for templates and components, which were used for CMS integration. I have also owned the bug fixing of this project from UI side.

Glad2bawoman: url: http://www.glad2bawoman.me

Glad2baWoman is a platform where we can view items related to women's. This application also consists of admin where admin can add the seller and products.There is a seller page to add the products.

In this project, I worked as a front end developer. My main work is to convert the PSD image to the HTML.

Fitcarte   url: http://www.fitcarte.com/home

Fitcarte is an online food order app.
This application consists of meal subscription and workout configuration where nutritionist and trainer interact with the customers and configure a meal and workout to the customers. Even Customers create their own subscription plan and workout plans.We also developed ERP systems and Kitchen Display Systems (KDS). This application is mainly developed as a API based web application.

In this project I worked as a front end developer. My main work is to convert the PSD image to HTML. Also, I have to parse the JSON from the response of the API.

Habba

Habba is a ecommerce website where we can buy homemade items and artifacts.

In this project I worked as a front end developer. My main work is to develop a HTML page with animations using css and Jquery by seeing the design given by the 3rd party client using Zeplin application.

Methodologies & Practices

Unobtrusive JavaScript, User Centered Design (UCD), Progressive Enhancement, Agile Development.

Tools & Software

Visual Studio Code, Notepad++, Brackets, Sublime Text, NetBeans, Windows, Microsoft Office.

Personal Info

Hobbies: Travelling, Gadgets & Technologies.
Languages Known: English and Tamil (read, write and speak)
Date of Birth: 10-Feb-1994
Gender: Male
Father's Name: Ramesh Kumar

Contact Info

Present Address: Sai Chaithan PG for Gents, #35/4, (Old No. 19), VP Road Cross, Near Sandhya Theatre, Old Madiwala, Bangalore - 560068.

Permanent Address: Door No. 1/14, VK Road, Mallapadi(Village & Post), Bargur, Krishnagiri, Tamil Nadu 635104

Declaration

I hereby declare that the above information and details provided by me are correct to the best of my knowledge.
